

If I learned anything over the years, I learned that “writing is hard.” You better know what you write, because someone is going to read it back to you. Under this very heading, I am going to give a brief overview of the most likely areas the “Biden administration” will influence and/or destroy by 2024. The outcome will greatly depend on what results the 2020 Senate election will produce. My prediction is based on two variables

- a) Republicans will keep the Senate majority; should the democrats gain Senate majority in 2021 or in 2022, the results by 2024 will be a lot worse.
- b) Israel and the US will not bomb Iran during Trump's remaining presidency

I also predict that should any 25 of the 60 predictions become a reality by the end of 2024, --this country is going to be in deep-deep trouble.

I'm basing my prediction on a simple assumption: between 2020-2024 approx. 10-15 “President Bidens” will be making decisions in the White House. None (not a single one) of them will have the first name “Joe.” Joe Biden will be relegated to a mindless rubber stamp.

The “Biden White House” is going to be a lot worse than the “Obama White House” was; Obama was a rotten gangster, surrounded by Holder type rotten gangsters. But gangsters do what gangsters supposed to do, therefore you can figure out what's coming. The gravest danger of the Biden WH will be that the “Cosa Nostra” component will be missing. No one, not even the participants will chart a unified direction; the “Biden WH” will be run by lunatics and trash in general; the Warren, Ezekiel Emanuel, Tom Perez, Sanders, Susan Rice, John Kerry, Hillary Clinton type lunatics and trash, while Kamala Harris is anxiously waiting in the wing to occupy the Oval Office. While watching the complete chaos, infighting and serial backstabbing in the “Biden WH” will be enjoyable, it will damage the country to an irreparable level. There is a 98% likelihood that Joe Biden will not finish his presidency; the Californian gang of Pelosi-Harris wants power. They are gangsters but not stupid; Harris knows there is between 0%-0.01% chance she will ever be elected president in this country. Joe by picking Kamala had just drawn a great target sign on his own back; “shoot me!!” And Kamala Harris will do just that. How does the saying go? “You cannot fix stupid”?

It will be a mess.

With that, my November 01, 2024 “Check List”:

#### **IMMIGRATION**

1. US border wall building will be stopped
2. Between 15 million-22 million currently illegal immigrants will be legalized
3. Borders will be open, our illegal immigration problem will be “the” largest ever, illegal immigrants will be flooding the US
4. Trump's ban on Muslim countries will be terminated; as a result, domestic terrorism committed by Muslims are going to rise

#### **EUQITY, EQUALITY & RACE**

5. “Equality” will be enforced, using various agencies
6. The US military will be decimated by social engineering efforts
7. “Race” will be paddled in all forms

#### **CONSTITUTIONAL RIGHTS**

8. They will make concentrated efforts to eliminate the conservative wing of FOX News, especially Tucker Carlson, Sean Hannity Lou Dobbs and Laura Ingraham. I see 95% chance that by 2024 none of these three will be on air at FOX News
9. Discrimination against conservatives at workplaces, universities, all forms of government will exponentially grow essentially terminating the First Amendment
10. Second Amendment Rights will be threatened; either by restricting weapon sales, or restricting ammunition sales, or taxing existing weapons as well as new purchases

#### **WEAPONIZING IRS, DOJ, and OTHER AGENCIES & HIGH-TECH INDUSTRIES AGAINST AMERICANS**

11. The Biden administration will use every avenues (incl. DOJ, IRS) to go after Donald Trump, his family and associates and will do everything in their power to destroy them
12. IRS, DOJ, Interior, and other agencies will be used to harass republicans
13. High-tech censorship supported by the government suppressing First Amendment Right is going to multiply

**INTERNAL ISSUES**

14. BLM and antifa will gain a lot more power. Harassment and physical threatening of anyone making conservative statement or wearing conservative paraphernalia will be rampant
15. Harassment of police will grow, the police force will shrink nationwide

17. The Obama government's "indictment without trial" under Title Nine will be brought back.
18. Unions (particularly the Teachers Union) are going to gain significant power
19. They will do everything legal and illegal to change the voting system to favor the left
20. Charter schools, "choice of schools" and "experimental schools" (where students get in by entry exam) in general will be near complete elimination
21. The US security apparatus will be compromised and weakened

29. The Biden administration will spend more than \$2Trillion on "green deal"
30. Defense spending will be (in nominal terms) lower by 10% compared to 2020 (real terms by 40%)
31. They will reduce student loans by 2/3<sup>rd</sup> writing ~\$1Trillion off
32. US government's financial support to America hater governments will resume (after the Trump administration suspended or terminated them)
33. Starting 2023 January, GDP will not going to be over 2% (2021 & 2022 are going to be the momentum of the Trump years)
34. Median household income (which grew by \$1,000 under Obama in 8 years and grew by \$5,000 under President Trump in 3.5 years), will be under \$1,000 between 1/1/22 and 11/1/24 under Biden. Trump's economic momentum will carry 2021; Biden will have nothing to do with that
35. The US will have debt north of 35 trillion dollars
36. By 3Q 2022 overall inflation will be north of 8% year on year, gold price will be north of \$2,800/ounce by the end of 2023

**UNEMPLOYMENT AND TAXES**

37. Unemployment will rise beginning June of 2022, and won't be lower than 7.5%, unless US worker participation index will drop (Obama's trick how to show a 16% unemployment as "7%"). In terms of total number of people working, the US will not reach the number under the Trump presidency (156.92M), and will stay under 148M (losing 8M jobs)
38. Various individual taxes, corporate taxes and individual taxes will rise
39. They will raise the minimum wage to \$15/h, killing ~1.2M jobs

55. The US will enter into an Obama-2.0 agreement with Iran
56. All negotiations with Europe and other parts of the world about equal tax treatment will be terminated
57. The US is going to lose significant international power; the US will be in worse global position than it was at the end of John Kerry's term

## **INTERNATIONAL ORGANIZATIONS**

59. Through WTO America will be forced to give away intellectual properties

One thing looks evident: the US is going to be in a lot worse position by the end of 2024 than it is today, or it was even at the end of 2016.

How did Sir Winston Churchill say? "Every country has a government it deserves." Yup. That's how it works.
